

Yanbu Industrial College

Dated: April 14, 2025

To Whom It May Concern

I am pleased to write a letter of recommendation for Reema Fahad Alrefai for applying as a **Web Developer** at Saudi Basic Industries Corporation (SABIC). In my capacity as a faculty member of Computer Science & Engineering at Yanbu Industrial, I have known Reema for the past two years as her teacher. This gave me the chance to gain insight into her abilities and personality.

Reema majors a Bachelor in Computer Science with an excellent GPA 3.7 out of 4.0. She is a very capable and dedicated student, with a genuine interest and depth of knowledge in the Department of Computer Science & Engineering. She did well in all previous courses, including my course “Computer Database Systems”. She got an “A” in it. I would rate her in the top 5 students and it is easy to distinguish her among thirty students.

During my association with her, she impressed me well with her intellectual abilities and with her proactive, focused nature. She has an innate ability to grasp and master basic concepts of any subject pretty fast. She is an inquisitive and patient listener and is an active participant in the classroom discussions, wherein she is very clear and logical to communicate issues without any ambiguity.

Reema is well-trained, ambitious, very open-minded and self-effacing. She will be successful wherever she ends up. She will be a dedicated employee and a competent professional. I recommend her very highly and without reservation to admit her for **Web Developer** position at SABIC. I will be glad to be contacted if any further information is desired.

Sincerely,

[Signature]
